Training and assessment arrangements (continued)

Formative assessment techniques or tools used to gather evidence

The following matrix identifies the type of evidence that will be collected towards competency and to enable judgments to be made about students' competency in each unit. Assessors have flexibility (according to the requirements of the Training Package, including the Assessment Guidelines and units of competency) to accept other forms of evidence from individual students (e.g. through RPL).

An assessment tool includes the following components: the context and conditions for the assessment, the tasks to be administered to the candidate, an outline of the evidence to be gathered from the candidate and the evidence criteria used to judge the quality of performance (i.e. the assessment decision-making rules). It also includes the administration, recording and reporting requirements.

Total for typical learner in this cohort	800 hours

^{*} Typically the learning time doesn't vary much between class based and distance learning, the assessment requirements are the same.

Legislated entry requirement for the industry is a two hour written exam, which encompasses literacy and numeracy assessments. Because of this, Language, Literacy and Numeracy (LLN) difficulties are rarely identified on enrolment for Certificate III, Certificate IV or Diploma qualifications.

Learning time may vary between 60-80 hours depending on alternative elective selection.

Estimate times have been determined by reviewing the learning content and assessments and how much time we anticipate it taking a learner to complete the units.

Students completing unit (s) through RPL would need to allow 50% of the time allocated for the above assessment activities to compile the portfolio of evidence.
